DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 20-28, drawn to a method for determining the quality of plant material.

Group II, claim(s) 29-30, drawn to a device for determining the quality of plant material.

Group III, claim(s) 31-33, drawn to a method for separating plant material.

Group IV, claim(s) 34-35, drawn to device for separating/classifying plant material.

Group V, claim(s) 36-37, drawn to a device for determining the quality of plant material.

Group VI, claim(s) 38, drawn to a device for determining the quality of plant material.

Group VII, claim(s) 39, drawn to a carrier comprising software.

The inventions listed as Groups I-VII do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the special technical feature in all groups is determining a chlorophyll

fluorescence image of plant material irradiated with a beam of electromagnetic radiation. This element cannot be a special technical feature under PCT Rule 13.2 because the element is shown in the prior art. WO 01/000333 teaches a method/device for sorting products with a light beam.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
